Importance: High

This is CMS box-checking at this point.

As I mentioned, this appears to have been totally reworked compared to the last draft NPCD cleared. In addition to any showstoppers, can you weigh on whether OLEM needs to review the flagged statement. If so, Jeff wants OLEM to concur.

Attaching my updates to the Black-Ivers replies re: Libby. Normally I'd provide the original for comparison (I cleaned up/flagged some consistency issues), but the ask from OPPT IO was pretty narrow:

- Confirm flagged statement with OLEM and request concurrence
- Resubmit to OGC and request concurrence

Some of the comment bubbles are posed to FOB for thoughts; others are notes in case we get dinged for changing the last-edited version. On that note – if there are any show stoppers added after we sent down, then please let me know. I think we can push back given passage of time.

THANKS!

This is the last I have on this—and we didn't have the letter at this point. . .

Maybe worth checking in with Alison to see if she has it electronically even if Hans doesn't?

Also, are we sure the OCSPP IO even wants to send a response at this point before we start working on it again?

Did a draft ever get loaded into CMS? Although we are cut out of the CMS process at the division level, they may want to look there for the latest. Just saying.

Talk to you tomorrow-

As hard as it may be to believe, the Libby letters (Ivers and Dr. Black) are somehow still being revised. The second (!) round of DAA edits came in and Erik wants to know if we can add

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

What's your take? It

goes to Jeff for signature after this.
